

## *Limited Product Warranty*

Sycom Warrants that all Sycom Industrial transient voltage surge suppressor units in-line are free from defects in material and workmanship for a period of ten (10) years from the original purchase date.

This warranty becomes null and void upon the Sycom unit having been physically damaged from accidental or intentional misuse. If the product has been altered and/or tampered with, repaired, attempted to have been repaired by any unauthorized repairman, or where the application of an unspecified AC or DC over voltage is the cause of failure, the warranty is also void.
